The Open University Broadcast Calendar 1996

Undergraduate and Business Courses

This booklet gives details of television programmes from the University's Undergraduate and some Business courses which will be broadcast during The Open University's academic year, 1996.

Transmission Times

Programme times are shown via the 24-hour clock. For example, a programme timed at 0030 on Wednesday means it will be transmitted at half-past-midnight in the early hours of Wednesday morning. You should be aware, however, that most TV listings would list this broadcast as a "late-night" Tuesday transmission.

Transmission times are subject to change at short notice and you are strongly advised to use the calendar in conjunction with the Radio Times or other listing publication. Latest available transmission details are also carried on Page 614 of Ceefax.

Programme Duration

All programmes are of 25 minutes' duration, unless clearly shown as having a longer duration (30, 50 or 90 minutes).

Broadcast Period

Please note that this Calendar covers only the OU academic year of early-February to mid-October. After this date, some programmes will be broadcast on a discretionary basis, details of which will be available in September 1996. For a copy of the schedule, please send a SAE to: DS96, The Broadcasting Office, PO Box 953, Walton Hall, Milton Keynes, MK7 6EB

New Programmes

A number of programmes have been retitled this year. Only programmes from courses marked as NEW this year, or programmes from existing courses with (New) beside their title are actually new for 1996.

Using Programmes in Education and Training

The Open University offers a Licence Scheme to enable schools, FE/HE, companies and other organisations to record OU broadcasts off air for use in training and education. For a free information pack please call our Hotline on 01908 262612. (Individuals may record programmes for their personal use free of charge.)
